

The Wonderful World of Science

Total marks: **30** · Questions: **5**

Instructions: Answer the following questions based on the chapter content.

Q1. Science is a way of thinking, observing and doing things to understand the world we live in and to uncover the secrets of the _____. [5 marks]

Q2. What is the first step in the scientific method? [5 marks]

- (A) Guess a possible answer
- (B) Observe something interesting
- (C) Test the guess through experiments
- (D) Analyse the results

Q3. Describe a daily life situation where someone might be following the scientific method. [5 marks]

Q4. Science is only done by scientists in laboratories. [5 marks]

- (A) True
- (B) False

Q5. Explain the steps of the scientific method and provide an example of how it is applied in everyday life. [10 marks]

Answer Key

The Wonderful World of Science

Q1. Science is a way of thinking, observing and doing things to understand the world we live in and to uncover the secrets of the _____.

Answer: universe

FILL_BLANK · EASY · 6-SCI-WOS-01

Q2. What is the first step in the scientific method?

Answer: Observe something interesting

MCQ · MEDIUM · 6-SCI-WOS-03

Q3. Describe a daily life situation where someone might be following the scientific method.

Answer: A person trying to find out why their pen stopped writing by checking the ink refill and testing different possibilities.

SHORT_ANSWER · MEDIUM · 6-SCI-WOS-03

Q4. Science is only done by scientists in laboratories.

Answer: False

TRUE_FALSE · EASY · 6-SCI-WOS-01

Q5. Explain the steps of the scientific method and provide an example of how it is applied in everyday life.

Answer: The scientific method involves observing something interesting, guessing a possible answer, testing the guess through experiments, and analyzing the results. For example, a person trying to find out why their plant is not growing might observe the plant's environment, guess that it needs more water, test this guess by watering the plant, and analyze the results to see if the plant starts growing.
